

Please do not allow a weakening of Indiana's Telephone Privacy Law. If this law is weakened, it will open the door to unsolicited calls from not only my local business connections but also to every entity they are connected to in a "business partnership". Just because I bank with XYZ National Bank should not open the phone lines for their subsidiaries (insurance, investments, credit card, mortgage, etc).

The National Do Not Call List and the Indiana Telephone Privacy Law are in place because of abuses to consumer privacy. Please do not allow the big banks to find a way around these important safe guards.

Sincerely,
Betty J Byrnes
